Non-GAAP financial information excludes the impact of stock-based compensation adjusted for the associated tax impact, which includes the effect of any benefits or shortfalls recognized. A reconciliation of the GAAP to non-GAAP gross margin, net income (loss) and earnings (losses) per share for the periods presented, as well as a description of the items excluded from the non-GAAP calculations, is included in the financial statements portion of this press release.

Total cash, cash equivalents and marketable debt securities on hand at the end of the second quarter of fiscal 2022 was \$449.2 million, compared with \$435.5 million at the end of the prior guarter and \$410.7 million at the end of the same guarter a year ago.

"Our rapidly expanding AloT foundation has positioned us to achieve record revenue in F2022, driven by new product cycles in existing markets and the expansion into new markets. The quality of our business is at its highest levels, with IoT cameras, primarily security, and automotive, representing ~90% of total Q2 revenue. We are capitalizing on this as demonstrated by the 450 basis point sequential increase in non-GAAP operating margin, reaching 16.9% in Q2," said Fermi Wang, President and CEO. "We believe we experienced the worst of the wafer supply shortfall from the Texas freeze in Q2, and we are seeing a 2H recovery from this event. While the significant industry wide supply-chain challenges persist, we expect F2022 to represent a major inflection in our business, and we are excited about our future."

Stock Repurchase

During the second quarter of fiscal year 2022, Ambarella's Board of Directors approved an extension of the prior \$50.0 million repurchase program for an additional twelve months ending June 30, 2022. The company did not repurchase shares in the second quarter of fiscal 2022. As of today, there are approximately \$49.0 million available for repurchases under the program. The repurchase program does not obligate the company to acquire any

particular amount of ordinary shares, and it may be suspended at any time at the company's discretion.

Non-GAAP Financial Measures

The company has provided in this release non-GAAP financial information, including non-GAAP gross margin, net income, and earnings per share, as a supplement to the condensed consolidated financial statements, which are prepared in accordance with generally accepted accounting principles ("GAAP"). Management uses these non-GAAP financial measures internally in analyzing the company's financial results to assess operational performance and liquidity. The company believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing its performance and when planning, forecasting and analyzing future periods. Further, the company believes these non-GAAP financial measures are useful to investors because they allow for greater transparency with respect to key financial metrics that the company uses in making operating decisions and because the company believes that investors and analysts use them to help assess the health of its business and for comparison to other companies. Non-GAAP results are presented for supplemental informational purposes only for understanding the company's operating results. The non-GAAP information should not be considered a substitute for financial information presented in accordance with GAAP, and may be different from non-GAAP measures used by other companies.

With respect to its financial results for the second quarter of fiscal year 2022, the company has provided below reconciliations of its non-GAAP financial measures to its most directly comparable GAAP financial measures. With respect to the company's expectations for the third quarter of fiscal year 2022, a reconciliation of non-GAAP gross margin and non-GAAP operating expenses guidance to the closest corresponding GAAP measure is not available without unreasonable efforts on a forward-looking basis due to the high variability and low visibility with respect to the charges excluded from these non-GAAP measures. We expect the variability of the above charges to have a significant, and potentially unpredictable, impact on our future GAAP financial results.
